

Canon

imageRUNNER 3230

Our Favorite Feature:

Remote Device Management- If you have ever needed to check the status of a print device from your desk, track the progress of your current jobs, or monitor paper and toner levels, then you'll appreciate the standard Remote UI utility. This utility provides access to the device through a standard Web browser from any computer on the network and also allows administrators to remotely manage Mail Boxes and local Address Book.

Standard Features

- Copy (30 pages per min)
- Direct Printing
- Network Printing
- Duplex Printing
