

Canon

imageRUNNER 1023iF

Our Favorite Feature:

Document Distribution Functionality – The imageRUNNER 1023iF offers a standard send feature so users can scan documents in color and distribute to other destinations (email/I-fax/ and File Server). Canon's PDF High Compression technology allows for efficient handling of color image data. Fax drivers are included with the standard Super G3 Fax feature so users can fax documents directly from their computer.
