

Canon

imageRUNNER 7095

Our Favorite Feature:

Improved Document Workflow –The new 7095 production devices offer a number of new copying and document storage features. These new imageRUNNERS build on this lineage with enhancements to Universal Send and innovative web-based printing capabilities. Each production Canon imageRUNNER system can each be configured with a choice of print controller options. And through it all, you will retain complete control over device access and data protection with the latest in identity management and security measures.
