

Canon

imageRUNNER 7105

Our Favorite Feature:

Superior Image Quality – Supports true 1200 x 1200 dpi print resolution (using PostScript and UFR II only; 2400 x 600-dpi equivalent for PCL)—greater than their predecessors and many competitive systems as well. In addition, Canon's newly implemented Fine Character and Edge Technology (FCET) is designed to provide improved character proportion reproduction, course screen processing, vertical/horizontal line width adjustment, and improved toner burst control for producing fine lines and text. It also offers a new quadruple-beam laser unit to keep pace with production environments.

Standard Features

- Copy (105 pages per min)
- Network Scanning

Standard Accessories

- Duplexing Automatic Document Feeder
- 2 x 1,500-Sheet Paper Trays
