Legal Firms

In an information-intensive, data-driven legal world, leveraging technology to improve workflow and information access is paramount. Our technology portfolio is designed to improve communications with courts, enhance collaborative efforts with clients and opposing counsel, and create more effective ways of distributing and accessing information—ultimately providing the freedom to increase billable hours. ***Count on Datamax to maximize the technology that matters!***

Datamax can help you:

- simplify and automate e-discovery, e-filing and traditional document workflows to discover relevant information while reducing document review time,
- increase legal administration productivity through easy-to-use enhanced document and imaging workflow solutions,
- convert scanned images to a wide variety of PDF formats, including PDF/A for archiving and PDF Searchable for keyword searching to accelerate case preparation and performance,
- mitigate data security risks and guard against phishing attacks, ransomware with best IT and MFP security practices, and
- reduce expenses and drive a rapid return on technology investments through fully integrated document systems that ensure cost recovery.

.....
Through relevant technology advisory and total solution deployment, we help legal organizations “go vertical” by maximizing their business processes, communications, and bottom line.

Advantages You'll Realize.

Workflow Management

Optimize productivity and reduce labor costs with customized and integrated workflows that combine multiple tasks into single processes. For maximum efficiency, legal documents can be routed automatically to any destination based on pre-defined rules.

Document/Client Security

Protect sensitive client information with strict adherence to the Sarbanes-Oxley Act (SOX) and other compliance standards. Our devices set the standard for providing protection services to ensure client data is optimally secured.

Electronic Document Management

Increase productivity by automatically converting scanned images to editable documents, in multiple file formats, directly from an MFP device.

Automated Legal Tasks

Automate and access Bates stamping, redacting, and highlighting directly from an MFP control panel.

Cost Reduction and Management

Implement client charge-back and cost recovery solutions that are fully integrated to an MFP device.
